TT is proposed to establish in Shangbai; L a Limited Banking Company, with the above title, in the belief that there is not only room, but actual necessity, for the additional facilities which such an institution will afford to the large local, counting, and foreign trade which centres in this port.

The great extension of steam communication both by sea and river, and the creation of telegraphic connections, since the existing Local Bank was founded, have greatly added to the importance of Shanghai, until it has become the great depot or distributing point for the trade of Northern and Cantral China; but, while it seems descrable that Shanghai should be the head-quarters of the new Bank, and its direction on the spot where the principal interests are involved, a local Committee will be formed in Hongkong for the promotion of the undertaking there.

The success of other public companies in Shanghai and Hongkong, and the evidence of a large sum of money seeking investment in Ohina, encourage, the belief that the proposed Capital for this Beak will be readily subscribed; many influential native merchants have already come forward as active promoters and supporters of the undertaking, and the Committee look for a very valuable constituency from Chinese

The legal constitution of the Bank is engaging the consideration of the Committee, and reference has been made to London and elsewhere for the best legal advice upon the subject; and it is understood that no Shares will be alloted, nor will operations be commended until the necessary arrangements have been completed. when further information will be laid before intending Shareholders. In the meantime, applications for shares are invited nutil the 15th April, 1872, but must be on the prescribed forms, which can be obtained from the Secretary.

By order of the Provisional Committee, J. GILFILLAN.

Bankers. THE HONGKONG AND SHANGHAI BANKING CORPORATION.

FIHE Shanghai and Pootung Foundry and Engineering Compuny has been formed to take over the business bitherto successfully carried on by Mr. David Muirhead, which is so well known to be the best

and most complete establishment of its The terms of the transfer are, that the Company acquires the whole of the extensive works, plant, property, contracts, and assets of the old business, freed from all

liabilities and encumbrances. The Property, including the Goodwill of the business, to be transferred to this Company, is complete and perfect in every branch, and consists of a site of about 50 mow of land, situate on the Pootung side, immediately opposite to the English Settlement, Shanghai, having a frontage to the River of 443 feet.

Upon this property are the following Buildings :--Boiler Shop. Pattern Shop and Smithy. Machine Shop. Foundry. Office and Store.

Assistant Manager's House. Manager's House. Furnaces. Wharf and Shears capable of lifting 40

The establishment is fitted up most completely with Planing, Panching, Rolling, Drilling, and Scrowing Machines, with powerful Lathes. Boring Mills, and Steam Hammers, Foundries for manufacturing Iron and Brase Castings, and Smithy for Forgings, such as are required for heavy Engineering and other purposes:

With the view of arriving at a correct valuation of the property and plant, Mr. CORTELL has made a careful estimate, which, after allowing liberally for depreciation, amounts to Taels 100,000, particulars of which can be seen on application. A satisfactory arrangement has been entered into with Mr. MUIRHRAD for carrying on the undertaking with the present efficient staff, and Mr. MUIRHEAD will

retain a large interest in the Company. The profits of the business during the last seven years have averaged over Tla. 18,000 per unium, equal to 18 per cent, on the present proposed capital. This property offers unequalled facilities

for the carrying on with sconomy work of the above description, while the whole of the plant is in the best possible state, its perfect efficiency having been continuously and carefully maintained. The introduction of new interests in the working may confidently be expected to yield an extension of the business; and the adoption of the mutual system, which has been found to produce such satisfactory results in other Companies, in the opinion of the Directors, canot fail to have a corresponding effect in this. It must also be borne in mind that the carrying trade of the East is in a state of transition from wooden sailing yessels to Iron Steamers. and this will, doubtless, benefit the Company, more especially as Shanghai is daily moreasing its steam traffic, and proving its enitability to be the terminal port in Ohina. The present, therefore, seems a good opportunity to acquire a business in working order, which, by means of a Company, can

be extended as circumstances may render A large portion of the Capital has been privately subscribed, and applications for the remaining shares should be sent to the Provisional Directors, care of W. HAR-WOOD, Esq., on or before Thursday, the 15th February, shortly after which date an

We are informed that the Hop. Mr. Rowett, for some time a member of the Legislative Council, and Chairman of the Hongkong and Shanghai Bank, will leave by next Mail. Mr. Rowett bas always showed himself willing to the best of his abilities to advance the interests of the public, and spared no pains in the per-formance of the duties devolving upon him in the various offices which he held. We are selves as Merchants and Commission confident he will carry with him the good wishesof the Community, and can only hope that his seat at the Council will be filled by an equally

energetic member. A notification in Obiness from the Colonial Secretary has been widely posted over the town, mentioning that the licensing of gambling bas now coased; that the Hon. Mr. Smith and the Orptain Superintendent of Police are to take steps for putting down public play bouses, and that the Chinese are not to bribe the Police, which will be useless, as these latter have nothing whatever to do with the suppression of the gambling. Thus is the Police but may it be asked whether the Hou. Mr. Occil Smith and our efficient and energetic Cuptain Superintendent of Police ge themselves personally round the town to spy out illicit gaming houses; because, it they do OTTO FRIEDRICH, have this day been not do so, there must be a fine field of bribes for the native informers they employ. The arrangement is marvellous in its simplicity. It is admitted that the discovery of illicit gambling haunts is one of the most difficult duties which the Police have to perform; and yet this is all to be done by a couple of busy officials, who, if ON LONDON. they did nothing else but act as spies on game bling houses, would be physically unable to do the work unsided, and whose employes will of course be just an ninch bribed as the Police; while the door will be opened for any quantity of paserupulous rascals to obtain bribes by representing themselves us the informers of the two officials who have been appointed Suppressors General of Gambling. This, foreauth, is called putting, down gambling, and is considered a subject for self-congratulation. On SHANGHAL. It is further interesting to enquire why the matured and carried out without one word of intimation being given to the public. Is it
